Delivery Module						
Precondition: The Delivery Staff member has a staff account created by the Admin and is logged in. Paid orders marked Ready for Pickup and assigned for delivery exist.						
Postcondition: Delivery progress is saved, the Admin and user can see the updated status, and the action is logged.						
No.	**Epic (System Component)**	**Persona (User)**	**I want to (action)**	**So that (benefit or value)**	**Scenarios (Given / When / Then)**	**Acceptance Criteria (System Requirement)**
DEL - 01	Authentication & Account Management	As a Delivery Staff member	choose my role on the Select Your Role screen	so that I reach the sign-in that belongs to my job.	Given When Then	1. The system shall show only the role cards listed for this entry screen.
					A. Pick the role **Given** the app has just opened and the Select Your Role screen shows the title "Select Your Role" and "Choose your role to continue" **When** the screen is displayed **Then** it shall show the Delivery Staff card ("Handle deliveries and track orders"), each with an icon and an arrow button **When** the Delivery Staff card is selected **Then** the system shall open the Delivery Staff Log in screen (H14: "Enter your work email", "Enter password")	2. The system shall highlight the selected card with the light-green fill and Primary Green border.
					B. Back **Given** a role Log in screen is open **When** the back arrow is selected **Then** the system shall return to Select Your Role without losing the chosen role card highlight

DEL - 02	Authentication & Account Management	As a Delivery Staff member	log in with my work email and password	so that only authorised Delivery Staff staff can open the Delivery Staff and its information.	Given When Then	1. The system shall show the Log in screen with: email field (mail icon, placeholder "Email Address"), password field (lock icon, eye icon), the "Remember me" tick box, the "Forgot password?" link, a primary "Log In" button, an "or" divider and a "Continue with Google" button.

A. Valid credentials **Given** the Delivery Staff is on the Delivery Staff Log in screen showing the F.I.L Foods logo, the title "F.I.L Foods", the label "Delivery Staff", the tagline and the footer "F.I.L Foods © 2026" **When** the staff member enters delivery@filfoods.ph and the correct password and selects Log In **Then** the system shall open the Delivery Staff Dashboard **And** a green banner shall show "Logged in successfully" at the top of the Dashboard content **And** the bottom navigation shall show only: Dashboard, Orders, Menu and Settings, with Dashboard marked active **Sample Data:** Email: delivery@filfoods.ph. Password: ••••••••••.	2. The system shall validate that the email contains "@" and that both fields are filled before checking credentials.
B. Wrong email format **Given** the Log in screen is open **When** the email is typed as deliveryfilfoods.ph (no @) and Log In is selected **Then** the system shall keep the staff member on the Log in screen **And** the email field shall get a red border and show "Invalid email. Add an @ before filfoods.ph and try again." **And** the password dots and the Remember me tick shall stay as entered **Sample Data:** Email: deliveryfilfoods.ph. Password: ••••••••••.	3. The system shall display the exact messages: "Invalid email. Add an @ before filfoods.ph and try again.", "Incorrect password. Try again or tap Forgot password?", "Email and password are required." and "Could not connect".

C. Wrong password **Given** the Log in screen is open **When** delivery@filfoods.ph is entered with a wrong password and Log In is selected **Then** the system shall show "Incorrect password. Try again or tap Forgot password?" under the password field, with the field outlined in red **And** no session shall be created **Sample Data:** Email: delivery@filfoods.ph. Password: wrong value.	4. The system shall open the Dashboard of the signed-in role only and show the "Logged in successfully" banner once.
D. Blank fields **Given** the Log in screen is open with empty inputs (placeholders "Email Address" and "Password") **When** Log In is selected with both inputs empty **Then** the system shall stay on Log in and show the heading "Please check your details" **And** the inputs shall show the prompts "Enter your email" and "Enter your password" **And** the message "Email and password are required." shall be shown (outcome H03)	5. The system shall show the role label "Delivery Staff" and not any other role's label on this screen (Figma Dietitian Log in currently reads "Admin Panel" and must read "Dietitian").
E. Show / hide password and Remember me **Given** the Log in screen is open **When** the eye icon is selected **Then** the password shall be revealed as plain text and the icon shall change (outcome H01) **When** the eye icon is selected again, or Remember me is unticked **Then** the password shall be masked again and the device shall not be remembered (outcome H02)	6. The system shall store passwords only as salted hashes and shall never display or log a password in readable form.

					F. Connection failure **Given** the staff member selects Log In and the network is down **When** the request fails **Then** the system shall show "Could not connect" and "Your request was not completed. Check your connection and try again." **And** the entered details shall be kept, no success message shall appear, and the buttons "Try again" and "Go back" shall be offered (outcome H10)	7. The system shall restrict Delivery Staff accounts to the features listed in this module.

DEL - 03	Authentication & Account Management	As a Delivery Staff member	recover my password through my account email	so that I can regain access without asking the Admin to do it for me.	Given When Then	1. The system shall send a reset link only to an existing account but shall always show the neutral wording "If an account exists for this email…".
					A. Request a reset link **Given** the Log in screen is open **When** "Forgot password?" is selected **Then** the system shall open "Forgot password?" with the text "Enter your account email to receive a reset link.", an "Email Address" field, "Send reset link" and "Back to login" (H04) **When** delivery@filfoods.ph is submitted **Then** the system shall show "Check your email" and "If an account exists for this email, a reset link is on its way." **And** the screen shall show "Email: delivery@filfoods.ph", "Check your inbox and spam folder.", "Resend link" and "Back to login" (H05) **Sample Data:** Email: delivery@filfoods.ph	2. The system shall reject malformed or blank emails with the messages in the scenarios and send nothing.

					B. Invalid email **Given** the recovery form is open **When** deliveryfilfoods.ph is submitted **Then** the system shall show "Check the email address below." and "Enter a valid email address, such as name@example.com." **And** no message shall be sent (H11) **Sample Data:** Email: deliveryfilfoods.ph	3. The system shall require both password fields to match and shall change the password only after a successful reset.
					C. Choose a new password **Given** the staff member opened a valid reset link **When** the screen "Reset password" is shown **Then** it shall show "Create a new password for your account.", "New password", "Confirm password" and the buttons "Reset password" and "Cancel" (H06) **When** the two passwords do not match **Then** the system shall show "Passwords do not match. Enter the same password in both fields." and stay on the form (H12) **When** both match and Reset password is selected **Then** the system shall show "Password updated" and "Your new password is ready. Sign in again to continue." **And** "Back to login" shall return to this role's Log in; the old password shall fail and the new one shall work (H07)	4. The system shall invalidate a reset link after use or expiry.
					D. Expired or used link **Given** the reset link has expired or was already used **When** the link is opened **Then** the system shall show "Link expired" and "This reset link has expired or has already been used." **And** it shall offer "Request a new link" (back to H04) and "Back to login"; no password shall change (H13)

DEL - 04	Authentication & Account Management	As a Delivery Staff member	continue with my Google work account	so that I can sign in without typing a password.	Given When Then	1. The system shall create a session only when the Google identity matches a staff account that holds the selected role.
					A. Authorised Google account **Given** the Log in screen is open **When** "Continue with Google" is selected **Then** the system shall show "Continue with Google", "Choose a work account for filfoods Food.", the account "delivery@filfoods.ph", "Use another account", "Continue" and "Cancel" (H08) **When** an authorised account is continued **Then** the system shall open the Delivery Staff Dashboard with the banner "Logged in successfully" **When** Cancel is selected **Then** the system shall return to the Log in screen unchanged	2. The system shall never create a new staff account from a Google sign-in; only the Admin creates staff.
					B. Unauthorised Google account **Given** Google confirms the identity but the account has no Delivery Staff role **When** the account is continued **Then** the system shall show "Account not authorized" and "This account is not allowed to access the selected role." **And** it shall add "No session has been created." and "Contact your administrator if you need access." **And** the buttons "Choose another account" and "Back to login" shall be shown (H09)	3. The system shall show the Google "G" mark beside the label "Continue with Google".

DEL - 05	Home & Navigation	As a Delivery Staff member	open my notifications from the bell icon	so that I can see new activity for my role in one place.	Given When Then	1. The system shall show notifications only for records the signed-in role is allowed to open.

					A. Notifications list **Given** the Delivery Staff is on a screen whose header shows the bell icon **When** the bell is selected **Then** the system shall open "Notifications" listing only items allowed for this role, for example "Order #00350 is pending" and "Menu item updated" followed by "No more notifications" **And** selecting an order notification shall open that order's detail screen for this role; Back returns to the source screen (S01)	2. The system shall mark an item as read when opened without changing the order or menu data.
					B. Empty inbox **Given** there are no notifications **When** the bell is selected **Then** the system shall show "You're all caught up." and "New updates will appear here." with a Back button; this is not an error (S02)	3. The system shall deliver notifications to the Delivery Staff only as set by the Admin (ADM - 21). The Delivery Staff shall not be able to turn them on or off, change which notifications are sent, or delete them (DEL - 07).

DEL - 06	Settings & Profile	As a Delivery Staff member	view and edit my account details in Settings	so that my name and email stay correct.	Given When Then	1. The system shall show the signed-in account's own name and email only.
					A. View Settings **Given** the Delivery Staff is signed in **When** Settings is selected in the bottom navigation **Then** the system shall show the title "Settings", the avatar initial "D", "Delivery Staff", "delivery@filfoods.ph" and the button "Edit Profile" **And** below it: App Preferences (Language "English", Appearance "Light Mode"); Support: Help & Support, About F.I. L Foods; and a Log out row (added because the source screen has none)	2. The system shall validate the email format before saving.

					B. Edit profile **Given** Edit Profile is selected **When** the system opens "Edit Profile" with the prefilled "Full name" and "Email address" and the staff member changes the email to a valid value and selects Save changes **Then** the system shall show "Profile updated" and "Your changes have been saved." with the new name and email and a "Back to Settings" button (S03, S04) **When** the email is typed without "@" **Then** the system shall show "Enter a valid email address." and stay in the editor (S05) **When** Back or Cancel is selected after changes **Then** the system shall ask "Leave without saving your changes?" with "Discard changes" and "Keep editing" (S10) **Sample Data:** Full name: Delivery Staff. Email: admin.updated@filfoods.ph (example).	3. The system shall not change the role through Edit Profile.

DEL - 07	Settings & Profile	As a Delivery Staff member	set language and appearance	so that the app suits how I work.	Given When Then	1. The system shall apply a preference only after Apply.
					A. Language **Given** Settings is open **When** Language is selected **Then** the system shall show a choice screen with "English" and "Filipino", and "Apply" / "Cancel"; Apply with Filipino shall show the Settings labels in Filipino (S08, S16); Cancel keeps the prior language	2. The system shall keep each preference per account.

					B. Appearance **Given** Settings is open **When** Appearance is selected **Then** the system shall show "Light Mode", "Dark Mode" and "Use device setting" with Apply / Cancel; Dark + Apply applies the dark theme (S09, S11); device setting shows "Current device theme: Light" (S17)	3. The system shall not show the Delivery Staff a Notifications switch. Notifications for this role are controlled by the Admin only (ADM - 21), and the Delivery Staff shall receive the notifications the Admin has turned on for the records the Delivery Staff may open (DEL - 05).
					C. No Notifications switch **Given** Settings is open for a Delivery Staff member **When** the Delivery Staff member views App Preferences **Then** the system shall show only Language and Appearance, with no Notifications switch, and notifications shall arrive in the bell inbox only as set by the Admin (ADM - 21)

DEL - 08	Settings & Profile	As a Delivery Staff member	open Help & Support and About F.I.L Foods	so that I can ask for help and read app information.	Given When Then	1. The system shall not show a ticket number or response-time promise.
					A. Send a support message **Given** Help & Support is open **When** a topic such as "Account access" and a message are entered and "Send message" is selected **Then** the system shall show "Message sent", "Your request has been received." and "A reply will be sent to your account email." with "Back to Settings" (S12, S13) **When** the message is empty **Then** the system shall show "Please enter a message before sending." (S14) **Sample Data:** Topic: Account access. Message: I need help with my account.	2. The brand name appears as "F.I.L Foods" in Figma screens and "filfoods Food" in some outcome screens; the final app shall use one name consistently.

					B. About **Given** About F.I.L Foods is selected **When** the screen opens **Then** it shall show "About filfoods Food", "Manage. Serve. Nourish.", "Admin · Kitchen Staff · Dietitian" and "filfoods Food © 2026" with "Back to Settings" (S15)

DEL - 11	Orders	As a Delivery Staff member	see the orders list with only the food, the customer's first name and the Order ID	so that I can prepare food without seeing private details.	Given When Then	1. The Order ID shall be unique and shown as #00000.
					A. Orders list **Given** the Delivery Staff selects Orders **When** the screen opens **Then** "Orders" with the search box "Search orders..." and filters All, Pending, Preparing, Delivered **And** rows show food image, FIRST NAME only, Order ID, date and status: Juan #00350 Oct 29, 2026 • 08:45 PM Pending; Maria #00349 08:30 PM Preparing; Carlos #00348 07:50 PM Delivered; Ana #00347 07:20 PM Cancelled; Mark #00346 06:55 PM Delivered **And** rows shall NOT show last name, price, total or address	2. Status badges: Pending, Preparing, Delivered, Cancelled.

					B. Fuzzy search by first name or Order ID **Given** Orders is open with the five sample orders listed **When** "Mria" is typed (a missing letter) **Then** only Maria #00349 shall be listed, with the first name only **When** "carols" is typed (two letters swapped) **Then** only Carlos #00348 shall be listed **When** "350" or "#00350" is typed **Then** only Juan #00350 shall be listed **When** "Mar" is typed (a partial name) **Then** Maria #00349 and Mark #00346 shall be listed, newest first	3. The system shall search only the first name and the Order ID shown on the list, and shall never search or reveal the last name, price, total or address.
					C. Fuzzy search: limits and combined filters **Given** Orders is open with the five sample orders listed **When** a last name such as "Reyes" or "Santos" is typed **Then** the system shall show "No orders found", "Try another name or order number." and "Clear search", because last names are not searched for Delivery Staff **When** "00359" is typed (one wrong digit) **Then** the system shall show the same "No orders found" message, because Order IDs are never spelling-corrected **When** "Jon" is typed (too different from any first name) **Then** the system shall show the same "No orders found" message **When** "Mria" is typed and Delivered is selected **Then** the system shall show "No orders found", because Maria #00349 is Preparing **When** the search box is cleared **Then** the full list shall be restored	4. The system shall ignore capital letters and extra spaces, match partial first names, and find first names with small typing mistakes (one wrong, missing, extra or swapped letter for names of 3 to 5 letters, up to two for 6 or more). Order IDs shall be matched only exactly or partially. Search shall start from 2 typed characters and work together with the status filter.
